

The Destiny Profile

A Runic Reading you do only once in your life

The Destiny Profile is an incredible tool for those on the path of self-awareness and conscious living. It will provide you with deep insights into your own nature, the limitations that are a part of your make-up and the ideal way for you to handle your passage through life.

Through the medium of the **Viking Runes** your profile will answer the following 6 questions:

1. **What Is My Nature?** By coming to terms with what you were born with and embracing your limitations, you open yourself to self-acceptance and the ability to meet your future clearly.
2. **Why Was I Born?** This question addresses the lack in your life. What is missing that you need to acquire in order to meet your full potential as a person?
3. **What Is My Vocation?** This is about how to best conduct or manage yourself in order to best meet the privation mentioned above.
4. **What Is My Destiny?** What is the ideal way for you to journey through this life in order to meet your spiritual destination or highest possibility?
5. **What is my Cross?** 'The Cross stands for a condition that lasts a lifetime; it is your 'ordeal' from birth to death. The answer to this question reveals the pattern of adversity you must undergo in order to increase in self-awareness and self-rule. Take up your cross voluntarily. For in so doing you are declaring your willingness to undergo the pattern of adversity ordained for you by the will of Heaven.' (Ralf Blum)
6. **What Is My Unified Self?** What are the qualities that will emerge when the different levels of your being are working in balance and creating harmony?

For many years I have used the runes and divination cards as an accurate and insightful tool for transformation for others and myself. I am a certified mindfulness practitioner and I am passionate about facilitating inner growth in others. It would be a deep honour for me to guide you through this life changing reading.
